Robotic Welding Manufacturing Business

Type of Business:

This Robotic Welding Manufacturing Business in Eastern Iowa is a sub-contract fabricator, welder, and powder coat painter of metal components for commercial and industrial machinery equipment manufacturers. The company provides precision welding with certified welders, robotic welding cells, and high-definition plasma cutting and specializes in automating parts their customers find difficult to weld manually. The company has a strong workforce with certified welders who are expertly trained and focused on providing quality work in a timely manner.

Market Opportunity:

Future growth could be attained through an aggressive marketing plan to expand the brand beyond the current footprint and bring in more leads. The business could also add more workers including a sales force to convert new leads as well as a second shift of welders to handle the uptick in workload.

Reason for Selling:

Retirement
